In *The Soul of the Indian*, Eastman brings to life the rich spirituality and morality of the Native Americans as they existed before contact with missionaries and other whites. This is a rare firsthand expression of native religion, without the filters imposed by translators or anthropologists. Rather than a scientific treatise, Eastman has written a book, as true as I can make it to my childhood teaching and ancestral ideals, but from the human, not the ethnological standpoint. His discussions of the forms of ceremonial and symbolic worship, the unwritten scriptures, and the spirit world emphasize the universal quality and personal appeal of Native American religion. Charles Alexander Eastman (born Hakadah and later named Ohiye S a; February 19, 1858 - January 8, 1939) was a Santee Dakota physician educated at Boston University, writer, national lecturer, and reformer. In the early 20th century, he was one of the most prolific authors and speakers on Sioux ethnohistory and American Indian affairs. [1] Eastman was of Santee Dakota, English and French ancestry. After working as a physician on reservations in South Dakota, he became increasingly active in politics and issues on Native American rights, he worked to improve the lives of youths, and founded thirty-two Native American chapters of the Young Men s Christian Association (YMCA). He also helped found the Boy Scouts of America. He is considered the first Native American author to write American history from the Native American point of view.
