AUTHORHOUSE, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Greetings! There are two interests that are sure to light up my life. Those being a hobby turned avocation, astrology, and stemming from my Old World Latvian roots, an insatiable appetite and interest in international cuisine. Inexplicably and joyfully, they come together in this popular non-fiction genre book, Dining by the Stars, An Astrology Cookbook! This is not a technical book for students of astrology, although the provocative theme of creating recipes from foods generated for each specific zodiac sign, Aries to Pisces, or collectively, according to the elements (of Air, Fire, Water, and Earth) is worthy of more attention in Western astrology. Initially, each zodiac sign has been classified, and listed for the reader are dominant foods and condiments with which it is associated. Each sun-sign s tendencies are then described from five different perspectives: .the personal habits of the sign .the sign and love .the sign and family .the sign and friends .and its seasonal celebrations In category by category, you will find recipes created for each sign, foods that would naturally attract it.
