INDUCTIVE POWER TRANSFER SYSTEM

LAP Lambert Academic Publishing Jun 2013, 2013. Taschenbuch. Condition: Neu. Neuware - The main objective of this project is to design a inductive power transfer system by using ac ac converter. This paper proposes to generate a high-frequency power current for inductive power-transfer (IPT) systems. Unlike traditional dc ac converters for IPT systems, the proposed converter can achieve a high-frequency current generation directly from an ac power source without a dc link. The power converter can maintain high-frequency resonance by natural...
