Forgotten Books. Paperback. Condition: New. This item is printed on demand. 456 pages. Dimensions: 9.0in. x 6.0in. x 0.9in. Excerpt from Physiology: Illustrated by Experiment In accepting the invitation to revise Coltons Briefer Course in Physiology, the reviser felt that, if this could be satisfactorily done, it would be a service to those who have so long found the book teachable and who would still retain it if it were brought up to date. And to those who have not known the merits of Professor Coltons books - in which his teachers instinct is everywhere apparent - it is hoped that the revision, containing all of the original pedagogical value, will appeal on the ground that the first edition has stood the test of fourteen years of continuous use, and that, in its present form, it embodies the newer data as far as they can be taught in the first two years of the high school. One of the radical changes in the book has been the unifying of correlated topics, bringing them together from different chapters into one more comprehensive chapter. This does not mean that the book is increased in size or in difficulty of understanding. The content and arrangement of the book is such that it can be used for one-third year, one-half year, or a whole years work. In schools of three terms, Chapters I-V, VII, XII, and XVII, with some demonstration exercises by the teacher, may be done in one term. Where there is one-half year, Chapters I-IX, XII, XIII, XV-XVII, with corresponding exercises may be profitably selected. Or, teachers may take more time for exercises and omit Chapters VI, X, XIV, and XVII. In any case, time may be saved by omitting Ailments or Diseases at the end of the chapters. In a years work all...
