Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Survival Gear Home Defense Guide with Step-by-Step Instructions Welcome to Home Defense Prepping, a D.I.Y. instructional book designed to better protect yourself and your home. In this book, we go over both security and defensive measures on can take to ensure safety. The information provided within this book, if used, will either deter or disable an intruder once they try to get into your home or manage to get into your home. First, we will go over security and the most vulnerable areas in any home; the doors and windows to a house. Openings within a house are how nearly all intruders enter a home and the standard home only provides minimal defense against such an intrusion. These methods will either be useful while there is power or, when there is no power, will still deter an intruder in special circumstances. We will go over the following security measures for doors and windows: Electrifying Openings Reinforcing the Strength of a Door against Breaching Rounds Hinge Theft Forcible Damage Weight Leverages Alarms It s also important to have as much in the way of defense as possible, which is why we provide in-house security and defense measures. This includes: Unsuspecting Nail Beds Defense Through Illusion Running Deterrence Homemade Mace These are just some of the measures provided by this book to help protect yourself and the home that you live in.
