Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Adjustment Between Kindergarten and First Grade: Including a Study of Double Sessions in the Kindergarten Sir: There are now in the United States nine thousand kindergartens, in which more than four hundred thousand children, mostly between the ages of 4 and 6, are taught according to the methods of the Froebel kindergarten, more or less modified to correspond to accepted principles of education and to American life and American forms of school organization. Most of the kindergartens are included in the public-school systems of cities and towns, and most of the kindergarten children later attend the public schools. One of the most persistent questions of the kindergarten is how to bring about a better adjustment between the kindergarten and the first grade of the school. This question has interest alike for kindergartners and teachers of primary grades in the schools, as well as for school officers responsible for the making of courses of study. To assist in answering this question, the accompanying manuscript has been prepared by Miss Luella A. Palmer, assistant director of kindergartens in the public schools of New York City. I recommend that it be published as a bulletin of the Bureau of Education for distribution among teachers, supervisors, and directors of kindergartens and primary schools and students of education. Respectfully submitted. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
