Excerpt from The Battle of Westport In spite, however, of the importance that may be thus justly claimed for the series of actions known as the Battle of Westport, those actions and their results have received but scant attention from the historians of the Great Con?ict. The reasons for that neglect are not difficult to ascertain. There were but few writers, scholars, students and West Point graduates on the more western field or in the ranks of Price s, Curtis and Pleasanton s armies. Their numbers were from the Ozark mountains of Arkansas, the farms of Missouri and the prairies of Kansas. Theirs was no mere political strife; it was the combat of men who fought for the very soil over which they charged, and backed with their muskets the opinions taught them at their mothers breasts. If the strategy of Yorktown and Waterloo was absent from their maneu vres in the field, at least they knew well how to forge rude sabers at the blacksmith s anvil, or to handle ri?es that had already rendered good service at Chapultepec or checked the yelling rush of Arapahoe and Pawnee. Then, their battle over, they mustered themselves out of service, plowed the earthworks under, and set about building cities as the sole monument of charge and counter - charge, until to - day school-houses dot the battle-field and church Spires line the historic Trail.
