Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The United States Magazine, and Democratic Review, 1847, Vol. 20 We have italicised a few lines which embrace the principle of protection in in length and breadth, and regard the sentence as an involuntary homage to the immutability of sound principles. The few lines we have quoted are singularly comprehensive in their meaning. They admit that up to this time the influence of protection has been to induce the production of small crops only to sell at high prices; that is, to demand from consumers a great deal of money for small quantities of food. This is for the interest of the producer of food; and the intervention of government was called for, to prevent consumers from getting more for less money from abroad. The moment the government intervention is abandoned, the producer is obliged to arouse himself and seek to retain the trade, by giving more for less money than even foreigners can afford. A natural consequence is, that the people of England obtain more enjoyments. It follows necessarily that where small quantities are produced, although the proprietor may, by charging high prices, get as much money as for a larger quantity at low prices, yet the laborers, and all engaged in handling and transportation, get much less; and this is one of the greatest evils of the protective system, viz., that it enhances the profits of capital, and diminishes both the employment of the poor and the amount of their earnings. This is a result precisely the reverse of what has been alleged to be the effect of protection; but a little reflection will convince every one, nevertheless, that such is the case. The above extract states truly,...
