Reviews

Merely no words to clarify. I could comprehend almost everything using this published e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Lori Terry)

HEALING SOUNDS: THE POWER OF HARMONICS (PAPERBACK)

Inner Traditions Bear and Company, United States, 2002. Paperback. Condition: New. New Edition. Language: English . Brand New Book. The Mystery Schools of Egypt, Greece, and Rome understood that vibration is the fundamental active force in the universe and developed specific chants and tones for healing the mind, body, and spirit and achieving altered states of consciousness. Overtone chanting--also called vocal harmonics--is the ability of the human voice to create two or more notes at the same time. Healing Soundsexplains how to perform vocal harmonics and experience their transformative and curative powers. An internationally recognized master teacher, the author provides diverse examples of sound healing systems incorporating both mystical and medical traditions--from Tibetan monks use of tantric harmonics to Dr. Alfred Tomatis use of Gregorian chanting--and their capacity to affect us on all levels. With many easy-to-follow exercises, Healing Soundsis the first book to show from both the scientific and spiritual viewpoints how to use the transformative power of sound for healing on physical, emotional, mental, and spiritual levels.
