

Vitrified Paving Brick A Review of Present Practice in the Manufacture, Testing and Uses of Vitrified Paving Brick

By Herbert Allen Wheeler

TheClassics.us. Paperback. Book Condition: New. This item is printed on demand. Paperback. 36 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1910 edition. Excerpt: . . . such a clay is open to suspicion until careful resampling and testing shows whether it is due to careless sorting or to manufacture. The best brick vary from 15 to 30 per cent In the tests, while Inferior brick exceed 50 per cent, and this range is a very valuable check on the care in making the brick, and on the sorting in loading. To illustrate the variations that usually occur in paving brick, the following table gives results obtained by the Civil Engineering Department of the University of Illinois from samples selected from twenty-four paving brick plants in Illinois, Indiana, Ohio, Missouri and Kansas by the Illinois Geological Survey: For fuller information as to the details of the above tests and variations in the samples, see pages 80 to 130, Volume 9, Illinois Geological Survey, Urbana, 100., 0908. USES OF VITRIFIED BRICK....

Reviews

This pdf will never be straightforward to get going on studying but quite enjoyable to read through. This is certainly for all those who statte there was not a really worth studying. You are going to like the way the blogger publish this publication. -- **Mrs. Adah Sawayn**

Thorough information! Its such a excellent read. It is really simplistic but unexpected situations within the fifty percent of your pdf. Once you begin to read the book, it is extremely difficult to leave it before concluding. -- Johnathon Moore
