A Comprehensive Survey on the Economic Effects of  
Information and Communication Technology in  
Hungary

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | A Comprehensive Survey on the Economic Effects of Information and Communication Technology in Hungary | Information and communication technology can be regarded as a universal technological system, which is closely linked to all of the previous systems and creates new, more complex technological systems. The rich literature of the information society discusses its diversified functions in detail. During my analysis, I have taken the information society as a normative future plan for Hungary,...

### Reviews

*It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
