Excerpt: . long been used for horses in Sweden. It is broken down and mixed with cut straw. It is in common use over different parts of Germany. I can not learn any particulars as to the mode of making, nor of the quantity given, nor of the horses condition. In France, many attempts have been made to produce a bread that would wholly or partially supersede oats, which seem to be comparatively precious on the continent. Buckwheat, rye, barley, wheat, and potatoes, have been tried in varying proportion, and, according to several accounts, with success. But it does not appear very distinctly why these articles should be converted into bread, which is a costly process, rather than given raw or boiled. It is indeed alleged that some of the constituent principles are not digestible until they have undergone fermentation; and it may be so,...

Reviews

An exceptional ebook along with the typeface employed was intriguing to see. It really is simplistic but surprises within the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.
