Promising players have their best shot at greatness if they are trained by well-informed parents and coaches. Choosing the correct, optimistic words at the right time motivates, inspires, and contributes to the growth of the player. Raising Athletic Royalty combines the latest sports science discoveries and neuroscience personality profiling along with personal lessons that motivate belief, confidence and passion. In modern sports science, customizing a developmental plan begins with understanding the athlete's individual brain and body type. Raising Athletic Royalty goes beyond conventional means and gently nudges parents into the modern world of sports psychology. Understanding your child's genetic proficiencies and deficiencies will help accelerate the learning curve. Raising Athletic Royalty captures the spirit and language that every child needs to hear- the script for success and happiness on and off the playing fields. It is no accident that certain athletes become great, while the majority of athletes, some with even more natural talent, remain average at best. Whatever the sport, the days of raising a world class athlete by being a passive parent are long gone. Hobbyist parents raise hobbyist athletes. Experts agree that the one size fits all training methodology is obsolete. Raising Athletic Royalty will truly enlighten and liberate parents and coaches with these exciting insights and principles.
