Mosby, 2008. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: In full color, this clear and concise text provides a comprehensive overview of the field and the job skills of certified athletic trainers. To establish a solid foundation, the book covers the evolution of the profession, systems of the body, and the body's responses to injury. It then moves into more in-depth chapters on diagnosis and management of specific types of injuries, followed by coverage of nutrition, psychology, and pharmacology before concluding with an overview of taping and bracings. The domains, core competencies, and proficiencies of athletic training are covered in a holistic way, allowing you to see and study the body in its entirety. A full-color format brings out key detail in illustrations and makes the text easier to read. Clear, concise, and straightforward writing simplifies complex subject matter. Evolution of the Profession chapter provides an illustrated overview of athletic training from its inception. Diagnosis and Management chapters cover the diagnosis and management of common sites of athletic injury, presenting information in an easy-to-understand whole-body format that includes the mechanism of injury, signs and symptoms, and immediate and intermediate care. Realistic cases accompany...
