Brand New Book. General Motors wanted to revolutionize transit bus design after having success with their New Look Bus through the 1960s. Being protagonists for progress, GM s engineers created a prototype coach that would address all of the New Look s shortcomings. This RTX (Rapid Transit Experimental) was a shock to the transit industry, and it wasn t until 1977 when the better-developed RTS bus became part of the Advanced Design Bus project and was the descendant of GMC s entry in the U.S. DOT s Transbus project. The RTS is notable for its curved body and window panels and has become recognized as a timeless design just like the GM New Look was. In 1987 the RTS patents were sold to Transportation Manufacturing Corporation (TMC) and then they sold the rights to NovaBus in 1994 who left the U.S. market in 2002. However, Millennium Transit Services has since revived the RTS in 2006. Here it is, the only book with the full in-depth history that is also well illustrated with...
