Read Books, United Kingdom, 2008. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This vintage book contains a comprehensive guide to producing fruit, with information on picking, sorting, packing, storing, shipping, and marketing. This practical handbook was written by an expert on the subject, and deals with everything one might need to know about the subject. Profusely illustrated and presented in plain language, this book is highly recommended for those with little previous experience, and would make for a worthy addition to collections of related literature. Contents include: The Fruit Market, Picking, Grading and Packing, The First Package, and Fruit Storage . Frank Albert Waugh (1869 - 1943), was an American landscape architect whose career focused upon recreational uses of national forests, the production of a highly natural style of landscape design, and the implementation of ecological principles. Many antiquarian texts such as this are becoming increasingly rare and expensive, and it is with this in mind that we are republishing this volume now, in an affordable, modern, high-quality edition. It comes complete with a specially commissioned new biography of the author.
