

What I Believe: An Engineer and Mathematician Looks at Life

By Richard Michael White

AUTHORHOUSE, United States, 2010. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This book is a blue print on the steps that must be taken to make America great again. It addresses America s problems from war to health care; from energy and nuclear power to global warming; from illegal immigrants to reinstatement of the draft of all young Americans; from a national registration system for all Americans to a practical solution to the financial difficulties of Social Security. The views and solutions to these problems are expressed through the eyes of Richard Michael White, a seventy-one year old man who holds advanced degrees in both engineering and mathematics. As Richard s life progresses from being a student in high school, to serving as an Army Officer on active duty, to a thirty year professional career, to his eventual, early retirement at the age of fifty-seven, his view of America s most pressing problems changes and solidifies into a coherent and detailed plan on solving these problems. The book begins as Richard describes the differences in the current world from 1957 when he graduated from high school to the present....
