Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Auditing Procedure So much good material has already been published on the subject of auditing that one naturally hesitates in making further additions to the supply. In fact, there can be very little justification in adding to this class of literature unless the contribution be of such nature that something of really practical value results. This work, tho it makes no claim to any finalities, is an attempt to deliver to the student of auditing and to the beginning practitioner a guide on procedure. Not only is it the intention to cover the various accounts that must be examined and analyzed in an audit and the reasons for such inspection, but it is more vitally the object to outline the actual methods, or procedure, necessary to secure satisfactory results from such examinations and analyses. Not what and why, but how - that is the essential message of this book. Within the limited scope of this work it has, of course, been impossible to delve into accounting problems affecting every peculiar type of business organization. The object of the book is a general one, and the remarks herein must therefore be limited by that object. It is almost needless to state that the standard works on auditing have been freely used as aids for subject matter as well as for arrangement. It will be noted that the arrangement follows the more acceptable forms of balance sheet and profit and loss statement construction.
