Instead of the customary oral examination for the degree of Doctor of Medicine, held at the end of the three years period of study, a series of written examinations on all the main subjects of medical instruction has been distributed for regular students through the Whole three years but they may be passed by other students either all at once at the end of their course, or, successively, at several times. Every candidate for the degree must hereafter pass a satisfactory examination in every one of the principal departments of medical instruction at some time during his period of study.
