A growing number of children are experiencing the multiple moves that are an inherent part of the Foster Care System. Early Permanence for children is vital for healthy bonding and attachment to their forever families. In our time, open adoptions are the norm and we see a growing number of older child adoptions with children who have spent at least some time in the Foster Care System. These children from hard places have experienced challenges in their early lives. They deserve and require a gentle approach when being transitions to their forever families. Foster Care is by its very nature, a temporary solution to a long-term challenge. Children who suffer repeated disruptions of caregivers are at risk for developmental delays, poor self-regulation and behavioral and mental health problems. The earlier in a child's life that we are able to accomplish permanence the better for the child's attachment capacity and long-term outcomes. When an at-risk child is moved to her permanent home, we are disrupting her primary caregiver once again. It is incumbent upon us to undertake this process with care and sensitivity. Our primary goals are to Preserve the Child's Attachment Capacity and to Support their Prior Connections. A traumatic transition can lead to long-term effects on the child and indeed the entire Adoptive family. Transition is the slow and measured relinquishment of the nurture, care and discipline of a child by her current caregivers and the assumption of these same duties by her new Adoptive Parents. When embarked on in a thoughtful, tender manner, transition can be a gentle process that enlarges both the child's sense of self and the circle of those who love and care for them. In this book,...
