Reviews

This book is definitely not effortless to start on reading through but extremely fun to learn. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.

The general balance sheet of a company sums up all its affairs and summarizes its accounts. It is a resume of its operations up to date. A great desideratum in this balance sheet is to arrange and condense the information so that the reader may comprehend at a glance the things it is essential he should. It should embrace only such information as is of interest to owners and managers, and those who seek investments in the property. It should be remembered in compiling such a statement as this that too nice particularization of facts tends to befog rather than enlighten. In this exhibit only the aggregates of the different classes of accounts should be embodied. The details necessary to the elucidation of these accounts can be rendered apart. A general balance sheet should exhibit on the debtor side the cost of the property; also, its assets, including supplies. On the other side of the statement should be shown the amount of the capital stock, classified, particulars of funded debt, and liabilities of various kinds. Further than this it should not go. For the purpose of comparison, the general balance sheet should embrace the balances at the time the last statement was made, particularizing the changes that each account has undergone. I append below, for the benefit of those curious in such matters, the more important accounts of a railway company that appear on the general balance sheet. It..
