Editions universitaires européennes EUE, 2017. Paperback. Condition: New. Aufl.. Language: French . Brand New Book. Dans le domaine de l'urbanisation, la multiplication d'initiatives individuelles, en l'absence d'un cadre préalablement défini par la puissance publique, risque de faire développer ce secteur sans définition de stratégies foncières, ni réflexion préalable, ni planification, ni projet d'aménagement et de développement durable. Telle démarche serait irréversiblement à la base de la consommation irrationnelle de l'espace, de la mauvaise intégration des constructions dans le tissu urbain existant, de la déqualification des paysages et de l'environnement naturel, de la non-maîtrise de l'architecture urbaine et de l'insuffisance de voirie et de réseaux d'assainissement dignes d'une ville. Ces aspects, en obstacles à un urbanisme durable intégrant des objectifs de protection de l'environnement, dégagent l'intérêt d'une législation spécifique, adaptée et appropriée en la matière.
