Because if you really are, then why did John, from the other department, got the job you ve been dying to have since you entered the company? Leadership is more than just being confident that you can manage a number of people and make them follow your lead. Each one of us influences at least ten thousand other people during our lifetime. Hence, the question is not whether we can influence these people, but in what manner shall we influence them. There are instances that competitors suddenly give up believing that they just can never be leaders. Maybe I m not really born to lead, they think. On the contrary, the key to effective leadership does not depend primarily in the abilities we are born with, but in techniques, skills, character, and qualities that we are open to develop throughout life.
