

# A Dictionary of English Names of Plants Applied in England and Among English-Speaking People to Cultivated and Wild Plants, Trees and Shrubs (Classic Reprint) (Paperback)

Filesize: 3.95 MB

## **Reviews**

*This is the finest publication we have read through right up until now. Better than never, though i am quite late in start reading this one. Its been written in an remarkably easy way in fact it is only after i finished reading through this book by which basically altered me, affect the way i think.*

Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from A Dictionary of English Names of Plants Applied in England and Among English-Speaking People to Cultivated and Wild Plants, Trees and Shrubs English names, and others are decided improvements on older names. As an instance in which it is a clear gain to ring in the new, ring out the old, I may mention Torch Lily, which I should think few would hesitate to adopt instead of Red-hot-poker Plant. In giving the popular and the scientific names of plants together, there is little left for the scientists to complain of. One very simple view of the subject has been apparently overlooked, perhaps from its very simplicity. Why should plants and owers be the only things that we are to have no means of speaking of in our own language? The utility and necessity of the botanical names no one denies - a noble and simple invention, a lingua franca for the learned of all nations, though grievously overburdened with synonyms and masses of cumbersome uncrystallised matter. But why must people who love owers know them by these names only - names that to many of them convey no sort of meaning - for all people who cultivate or enjoy owers have not such a knowledge of the dead languages as to make the names intelligible? And why in any case speak in a dead language only of things so essentially living and affecting our daily use and happiness Why should a piece of pedantic tyranny be imposed on us in this matter, and this only 9 Animals, birds, and insects also have their necessary scientific names, but no one reproves us for talking of a horse, or a sparrow, or...
