

Ravings of an Internet Madman (Paperback)

By F V Karch

Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. AUTHOR S WARNING: I need to add an Author s Warning to the listing for this book. I m also selling this book on street corners (not really, it s a phrase) and people who buy the hardcover copy of the book are reporting strange things happen after they finish the book. Some people say the ghosts in their houses become more active. Others report their views on things change. One person who read this from cover to cover packed a bag, told her roommates she had something to do and disappeared -- she just left for parts unknown. I m serious. I ve had everyone from very intelligent, very logical, science-based people to heavily devout Christians to New Agers to Gen X ers read the hardcover version of this book and things change either too them or around them. It doesn t seem to as often happen for those who buy the eBook. Something about the physical presence of the book, once completely read, changes people. Look, if you preview the book, preview the eBook version. Amazon included a lot...
