Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Our national parks, nature and earth are beautiful, a legacy from God, to love and protect globally. National Parks and all of nature, farm lands, crops and water are heavily polluted by abuses of corporations, and others wishing to profit and destroy these lands and seas of the world. Use of chemtrails, intentional un-natural disasters, creation by people of all kinds of disasters that can befall the earth using technologies such as HAARP stations x over a hundred, space fences times thousands, nuclear waste and radiation, these and more are used in Star Wars modern warfare in earth, outer space, and vicinity. Using plasma from the sun, gravity from space bodies, the gravity and power from nature, especially in national parks, is taking place for God knows only how long. The force of these activities and intentional genocide of all is not acceptable ever in the past or present or future. Soli Deo Gloria forever.
