Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Catalogue of the Valuable Collection of Coins of the Late Joseph J. Mickley: Comprising Early British, English, German, Spanish, French, Italian, Swedish, Danish, Chinese and American Coins and Medals, in Gold, Silver and Copper The attention of numismatists is called to the fine condition and great variety of modern silver and copper foreign coins in the within catalogue. The late J. J. Lilickley enjoyed rare opportunities (during a recent three years tour of Europe) of collecting complete sets of this class of coins; some of which he collected by authority of the United States government, visiting for the purpose some thirty-five mints of different nations. In this way, and by purchase, a number of duplicate sets and single pieces were obtained, which form a part of this cabinet. The American series, though far from being complete, contains many rare specimens, a portion of which are in proof or uncirculated condition. Great care has been taken to give the exact condition and rarity of the important examples in this really interesting collection. Mr. Illicley s well-known aversion to counterfeit coins, go is a guarantee that copies (unless of historical interest) are few and far between, and when met with, are properly described. Over description has been carefully avoided. Having had a rather large experience in arranging cabinets for public sale, the subscriber feels confident the present effort will prove satisfactory to all concerned.
