Those well versed in the intricacies of Heidegger's thought may find the Conversation a refreshingly concrete presentation of one of the fundamental points in his philosophy. The interplay of thought and argument, the free use of word and metaphor, the poetic summaries, all offer a new perspective on an abstract argument, which should be of help in rounding out an awareness of the vision Heidegger has of the place of man in Being. And for the philosopher or theologian as yet unacquainted with Martin Heidegger's thought, the Memorial Address and Conversation might well provide a tempting taste of a philosophy which already has a place in history.
