Too many adults are hindered in life by limited beliefs as a result of how they were raised as children. Effective parenting is critical to nurturing a healthy self-image in kids. Personal affirmations are also essential in developing a healthy self-image. This book outlines 31 powerful success affirmations/guides that students should implement daily to develop self-reliance, self-belief and a healthy self-image so that they can pursue and achieve their life goals. PARENTS: Get this book for your kids if you want them to develop the courage and conviction to discover and rely on their inner genius to pursue goals that will launch them into a successful future. If you have younger children from 0-10 years old, sit down and read this book with them, together. After each chapter, discuss what that chapter means to them and what they will do to implement the principles in that chapter. If you have an older son or daughter, give them a copy of this book and encourage them to read it daily. Older students should also get this book for themselves to learn success principles as they prepare to go into the job market. PARENTS: When your kids start to believe in the power of their Innate Genius, they will take independent responsibility for their future and start to act in ways that promote their best interest. The result is a well-balanced child who has a good sense of self, a good sense of direction, and the drive to make a positive difference in their personal lives, their family, their community, and the world at large!.
