Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The New Atheists tell us that science has disproven the existence of an active Creator, the type of God described in the Bible. They claim their theories leave no place for such a Being. But those theories have been specifically developed in such a way as to eliminate any place for Him. Many believers through the years have tried to make their God conform to the theories of modern science, but they all suffer from the same conceptual flaw. They accept those theories as facts. The existence of God may not conform to currently accepted theories, but there is no conflict at all with the actual results of scientific experiments! The author of this book contends that we can look at the Universe from a unique perspective that not only explains these results in the simplest and most direct manner possible, but offers us an understanding of the Bible and our place in God's plans that is more profound than we've ever had before.
