DEMAND REVELATION AND THE PROVISION OF PUBLIC GOODS

iUniverse. Paperback. Book Condition: New. Paperback. 296 pages. Dimensions: 9.lin. x 6.0in. x 0.7in. The demand revelation process has been called a new and superior process for making social choices and holds some promise of creating an intellectual revolution in economics and politics. It relies on a so-called Clarke tax or pivot mechanism to ensure that individuals will adequately consider the social cost of their influence on social outcomes, thereby ensuring truthful revelation of preferences and overcoming the free rider problem...

Reviews

This publication is indeed gripping and intriguing. It is actually written in basic terms and not difficult to understand. I am just pleased to explain how here is the greatest publication we have read through during my own lifestyle and could be the best pdf for at any time.
