Language: English Brand New Book ***** Print on Demand *****.Excerpt from An Introduction to Botany Two hundred and ninety years have now elapsed since one of the earliest introductions to Botany upon record was published, in four pages folio, by Leonhart Fuchs, a learned physician of Tubingen. Little was known of Vegetable Physiology, nothing of Vegetable Anatomy, and even the mode of arranging species systematically had still to be discovered; while scarcely a trace existed of those modern views which have raised the science from the mere business of the herb-gatherer to a station among the most intellectual branches of natural philosophy.
